Chi wei liu dds

Dr. Liu was born and raised in Taiwan. At 14, he moved to Austin, Texas, where he continued his schooling and finally took care of the University of Texas at Austin with a bachelor's degree in microbiology. During this time, he took a special interest in dentistry because of his multifaceted nature of combining art, knowledge and hand skills with the ability to directly improve people's lives. After college, he moved to Richmond, Virginia and earned his DDS degree from Virginia Commonwealth University. He expanded his knowledge of dentistry through a general practice residency at Carolina's Medical Center in Charlotte. Dr. Liu is well versed in all aspects of dentistry, including restorations, crowns and endodontic treatments. He is particularly adept at tooth extraction and received extensive training in many oral surgery procedures. At school, Dr. Liu very involved in community service. He always participated in Mission of Mercy projects, which are out-reach mobile clinics for areas where dental care is scarce. He believes that everyone should have the opportunity to get high-quality dental care. He prioritizes patient comfort and education while providing the highest quality of dental care. He understands that many people are nervous about dental treatment, and he prides himself on his ability to calm nervous patients. He is very patient and gentle and he loves seeing children. Dr. Liu strives to be a careful listener whose goal is to involve the patient in their own care and make decisions together. In his spare time, he enjoys cooking and spending time with his family. He loves to learn about different cuisines and food cultures. He loves going to new places, especially hiking trails and national parks. You can make an appointment and meet him at the Charlotte location every Monday and Tuesday and at Clendon's location on Thursdays and Fridays. There is no difference between the two degrees; dentists who have a DMD or DDS have the same training. Universities have the power to decide what degree is awarded. Both degrees use the same curriculum requirements set by the American Dental Association's Commission on Dental Accreditation. Generally, three or more years of bachelor's degree plus four years of dental school are required to upgrade and become a regular dentist. State licensing boards either accept the degree as equivalent, and both degrees allow authorized persons to practice the same level of general dentistry. Further post-graduate training is needed to become a dental specialist. comments driven by Bei uns sind Sie in the besten Handel. Praxis für Neurologie & Psychiatry 1.
